Pecolift. A Step Change.

The Power Tower Pecolift is a simple, safe and efficient alternative to step-ladders, platforms, podium steps and small scaffold towers.

Pecolift is the first non-powered, powered access platform. It does not require batteries (or charging) or connection to an electricity supply. It works by utilising Pecolift's unique Patented* lift mechanism requires minimal manual effort to raise the fully guarded platform from the low 280mm entrance height up to 3.5m working height(1.5m platform height), stopping at any height you want! No more climbing steps and balancing, with the Peco-Lift you're fully guarded with both hands free to work!

With a tiny footprint and at only 145kg, Peco-Lift is very easy to push and manoeuvre even in the most confined areas.

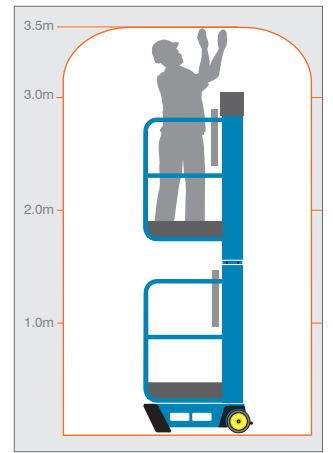

Pecolift is designed for working internally on flat, level surfaces, it is very ecologically friendly and is ideally suited to working in a very wide range of applications: from the very 'clean' environments of hospitals, food and drinks production facilities, pharmaceuticals and retail to facilities in maintenance, shop-fitting and construction.

NON-POWERED POWERED ACCESS

OPERATING SPECIFICATIONS

Working Dimensions	
Maximum working height:	3.50 m
Maximum platform height:	1.50 m
Basket dimensions:	720 mm (L) x 600 mm (W)
Working footprint:	985 mm x 700 mm
Safe working load:	150 kg (1 person + tools)
Maximum manual force:	200 N
Maximum gradient for operation:	0 degrees
Maximum wind force:	Internal use only, 0 (zero) mph
Maximum wheel force:	125 kg
Maximum ground pressure:	125 kg/0.001m ²
Sound pressure level:	Less than 70DbA
Closed Dimensions	
Length:	985 mm
Width:	700 mm
Height:	1.550 m
Weight:	155 kg
Lift Cycles	Infinite

“ Pecolift has revolutionised the way we operate, we've dispensed with our steps and podiums and no longer have the hassle of power on site or ensuring we charge the batteries overnight. With minimum downtime and virtually no maintenance the Pecolift is fast to use, simple to operate, efficient and cost-effective. Above all we have a fully guarded safe efficient working platform. ”

eco compliant 

Power Towers are committed to eco friendly manufacture.

Pecolift is hydraulic fluid and battery free, and with no need to charge has no energy consumption. Pecolift is an eco friendly solution to Powered Access needs.
